Song Story: Up & Down melody motion reflects FLITTING FLIGHT of a butterfly. God's IDEA: **DREAM** on 9 October 2017, during week with God called SUKKOT, or Feast of Tabernacles; wrote lyrics to this song: I was pulling weeds in a gravel driveway, including tall ones with tiny blooms. A black **tattered** butterfly at the end of its life struggled to drink nectar food from the daisy weed I had just pulled. I gently re-inserted the plant into the hole I'd pulled it from, without disturbing the eating butterfly. MY SUDDEN THOUGHT **IN THE DREAM** (from God): **Most people would not bother for a bug that is now old & UGLY..... about to die anyway.** GOD HIMSELF loves us enough to **BOTHER** to carefully take care of us -- all the more gently when we are getting older, weaker, **TATTERED.... like a Dad singing a Lullaby of Love.**
